Biomedical Engineering Option

Application for Summer 2010 Entry

Name: _____

Student Number: _____

Mailing Address: _____

UVic E-mail Address: _____

Phone Number: _____

Date of application: _____

Degree Program:

B.Eng. in Computer Engineering

B.Eng. in Electrical Engineering

Current Term (on date of application) _____

Admission criteria:

Admission to the Biomedical Option is subject to the following:

- Availability of resources
- Academic performance in completed courses
- Pre-requisites for BIOL 190A

Deadline

The deadline for applications is **February 25, 2010**. (Late submissions may be considered pending available space, and at the discretion of the Department of Electrical and Computer Engineering)

Please submit this application to the **ECE Undergraduate Advising Assistant (EOW 403)**. You will be contacted with a decision in March, 2010.

Please refer to additional important application information on the reverse side of this form.

Important information:

You may receive a ***conditional admission*** offer that is based on satisfying the admission criteria. The specifics of your conditional offer will be detailed within your letter of offer.

Note:

- The Biomedical Engineering Option requires the completion of all requirements in the BEng Program plus an additional 6.5 units as indicated in the current University Calendar.
- The Biomedical Engineering Option courses begin in Term 1C (summer) following completion of your regularly scheduled Term 1B (spring). The program course schedule for this option is presented at www.ece.uvic.ca/ugrad/
- Any modification to your program of studies, including abandoning the completion of a program Option, must be reviewed by the ECE Department by submitting an appropriate program modification request form. You are strongly encouraged to review any contemplated program modifications with the ECE Undergraduate Advising Assistant.
- The Biomedical Option is presently articulated for 1st year students only. If you are considering this Option from 2nd year or beyond, you must submit a current program modification request with this application, in order to review scheduling and pre-requisite conflicts.

Questions:

If you have academic related questions about this Program Option, contact program directors:

For Electrical Engineering: ecediree@uvic.ca

For Computer Engineering: ecedirce@uvic.ca
