Course Assignment License Acknowledgment

Each assignment in this course provides the student with starter code that serves as the initial point for the student in their assignment work. This starter code is made available under the Course Assignment License, Version 1.0, a copy of which is included with the starter code.

By signing below, I acknowledge that I have received, read, and understood the Course Assignment License, Version 1.0, and I agree to abide by all terms outlined therein. Furthermore, I also understand the following important points related to the license and its implications:

- I am strictly prohibited from publicly or privately sharing, uploading, or distributing, in whole or in part, the starter code or any code derived from it (including my assignment work or submissions) through any means such as websites, repositories, messaging platforms, or file-sharing services.
- This restriction applies both during and after the course and includes sharing with other students or individuals not enrolled in the course.
- Some breaches of the license terms may constitute a violation of the University of Victoria's academic integrity policy and may carry consequences under that policy.
- The license is also a legal agreement, and certain violations (such as unauthorized sharing or distribution) may have legal consequences under copyright law.
